**To: All Interested Parties**  
**Regarding: Company Name Change!!!**

20-June-2016

Hello,

We have exciting news to share with you. As many of you know, Sherrill Industries acquired Industrial Metal Craft late last year. With this merger we were able to combine Sherrill's CNC turning and milling capabilities with Industrial Metal Craft's fabricating capabilities. We have been working hard since then to make these two companies one and we now have the ability to offer a wider range of services which include laser cutting, welding and bending to complement our existing turning and milling. We are still currently operating out of two facilities but expect all operations to be under one roof in our Dallas location late this year.

To make this marriage of the two companies complete, we have decided to change our name to more accurately describe what we really do. Our new name is Sherrill Contract Manufacturing. Please take time to visit our new website at [www.sherrillcm.com](http://www.sherrillcm.com) to learn more about this new company.

We will still have the same staff in place from both companies that you have come to know and rely on. Combining the knowledge and experience that the employees of these two companies bring together offers an increased level of customer service.

For vendors and customers that are used to dealing with Sherrill Industries, the mailing address will remain the same but the mailing address for IMC will change to PO Box 478, Dallas, NC 28034 effective immediately. The ship to address for the fabrication facility will remain 901 Tulip Drive, Gastonia and for the machining facility 110 Durkee Lane, Dallas until the move later this year.

We are all very excited about this new venture that we are about to start together and look forward to developing stronger relationships with all of you.

**Rick Hargis**  
**President**  
**Sherrill Contract Manufacturing, Inc.**
